

## Top and Root Moisture Content of Stored Douglas-Fir Planting Stock (Classic Reprint) (Hardback)

By Robert F Tarrant

Forgotten Books, 2017. Hardback. Condition: New. Language: English . Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*. Excerpt from Top and Root Moisture Content of Stored Douglas-Fir Planting Stock Thus, we have evidence that tops of desiccated seedlings contain substantially more water than roots do; that deleterious effects of desiccation probably occur first in roots; and that living roots are not necessary for maintenance of live plant foliage over a substantial period of time. We might, therefore, speculate as to the true cause of some seedling deaths in the late Spring or early summer after planting. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. Find more at This book is a reproduction of an important historical work. Forgotten Books uses state-of-the-art technology to digitally reconstruct the work, preserving the original format whilst repairing imperfections present in the aged copy. In rare cases, an imperfection in the original, such as a blemish or missing page, may be replicated in our edition. We do, however, repair the vast majority of imperfections successfully; any imperfections that remain are intentionally left to preserve the state of such historical works.

### Reviews

*This written pdf is great. It is really simplistic but surprises within the 50 percent of the pdf. I realized this pdf from my dad and i advised this pdf to understand.*

-- **Mr. Milford Jakubowski IV**

*Very good e book and helpful one. it was writtern quite properly and helpful. I am quickly could possibly get a enjoyment of looking at a composed book.*

-- **Connor Lowe IV**
