This publication may be worth purchasing. I am quite late in start reading this one, but better then never. It is extremely difficult to leave it before concluding, once you begin to read the book.

Dr. Reznicek asserts that addiction is not a medical problem to be treated in rehab or by prohibiting substance use. Rather, he debunks the disease model, arguing that it has exacerbated the problem by telling drug abusers that they are not responsible for their behavior, that they are sick, that they are not to blame. The habit model is more consistent with current neuroscientific knowledge and it accounts for the widely observed phenomenon that most substance abusers don't change until they hit bottom, the point where the consequences of drug use finally outweigh its benefits. Using the habit model, Dr. Reznicek suggests the solution to the drug problem is to turn back the clock, and to take lessons from societies that use social controls and consequences to deal with addiction and drug abuse. He recommends the legalization of drugs for adults, the implementation...
